S.P. Harrisburg Warren Co Ohio

W. L. Garrison — Beloved brother I drop this hasty note to call attention to a booke which I have mailed to the Liberator office entiled "Equitable Commerce" &c — The Author Josiah Warren has placed in my hands several copies of this work giving me the privilege to send them to such Editors as I may deem it worth while for their examination & review And I feel that the starving millions demand of me to offer a copy of this work to be inspected by the Liberator I send this note along to call attention to it knowing the state of things touching the great pile of books which presenting themselves at the Editors table like Satan of olden time presented himself to be examined with the Sons of God — I request thee my beloved friend however thee may be of recieving the scum of the Earth in the shape of new books to search out this one and give it a notice according its merits may seem to thee to deserve And if any of the Eastern friends wish to procure the book they can find it by enquiring of me — The Western people are looking with much intrest to thy visit to Ohio we are sorry thee can not remain in the State longer — I will pay the postage on the book so as to insure its reception as perhaps it may not be considered in the line of exchanges

Thine for the Spirit of promulgation of the dictrine of "No Union with Slaveholders" — I shall look with intrest for the Liberators opinion of the Pamplet on "Equitable commerce"

Valentine Nicholson
